Find Payer for Submitting Transactions

When populating the forms outlined below, the correct payer must be provided to appropriately route the transaction. The CPIDs below must be used when creating uploading batch claims to identify which plan is being billed. Please note that a different CPID should be used for Institutional claims then for Professional claims. Be sure to select the CPID from the column appropriate to the type of claims you are creating. The 5-character payer IDs that are more commonly used to identify these plans are included in this table as a cross-reference but should not be included in ConnectCenter claims

Selecting the Find Payer button will provide a search where you will enter one of the Payer IDs provided below.
